Product Care

Allure DLV products should be cleaned using a mild, nonabrasive cloth lightly moistened with soap and water and dried immediately after cleaning. Avoid using coarse brushes and rags as well as harsh chemicals such as ammonia, alcohol or bleach. In order to ensure that no adhesive remnants remain on the face of the products, the protective film should be removed once installation is complete or at a maximum of 6 months after delivery.

Conestoga's Allure Collection of Decorative Laminate Veneer doors, drawer fronts and accessories have evolved into an extraordinary new level of appeal. The Allure Program includes a variety of door designs with on-trend colors and grain patterns, including glazed solid colors. Who knew such beautiful, dependable products could be so perfectly alluring?

1-Year Limited Warranty

For a period of 1-year from the date of shipment, Allure products will be reasonably free of defects in materials and workmanship. When properly handled, Allure products will conform, within acceptable tolerances, to applicable manufacturing specifications. This limited warranty applies only to those Allure products which are stored, handled, and installed in the manner consistent with Conestoga's wood components. Conestoga will not be responsible or liable for any indirect, consequential or incidental damages or cost sustained by the user.
